

VISCOM[®]
AUTOMOTIVE GMBH

2014 was time for **REVOLUTION**, we made a piece of the man's world accessible for women even children, now we accelerate **EVOLUTION**.

> “EVERY REVOLUTION STARTS WITH FOCUS ON ESSENTIALS.”

EVEN IN THE SMALLEST BUSINESS THERE IS ENOUGH ROOM FOR INNOVATION.

BASIC EDITION

TM-A SYSTEM

- Complete adapter system applicable for 95% of at the time existent Turbo chargers (in price incl.)
- Unrivalled mantling time through the use of neodym magnets
- The system is patented by the German Patent and Trademark Office

ON BOARD

- Industrial TFT Monitor 7" Touchscreen
- Industrial Software „Windows Embedded“
- Measuring Software VISCOM (Basic Edition)
- Over 1.000 measuring references
- Database for electronic turbo chargers (Tester ATD-1 and DELTA-TECH)
- USB port

TECHNICAL FEATURES

- Industrially verified sensors
- Industrial control system (Beckhoff)
- Software available in GER or GB language (Standard) / optional PL, FR, IT, RU, SP
- Intuitive software
- USB Update (optional)

WORK DYNAMIC

- 5 to 15 seconds mantling time for any turbocharger
- Ready to measure 31 seconds after turning it on
- Efficiency: over 70 measures within 8 hours

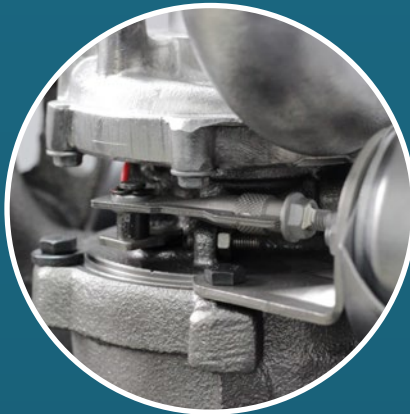

TECHNICAL SPECIFICATIONS

- Voltage: 230V / 50 Hz
- Current: 10A
- Dimensions mm: L:1150 B:690 H:1430
- Weight : 220 kg

> "SIMPLE EFFICIENCY CAN BE
A PIECE OF REVOLUTION."

BETTER DOESN'T HAVE TO BE MORE COMPLICATED.

COMFORT EDITION

TM-A SYSTEM

- Complete adapter system applicable for 95% of at the time existent Turbo chargers (in price incl.)
- Unrivalled mantling time through the use of neodym magnets
- The System is patented by the German Patent and Trademark Office

ON BOARD

- Industrial TFT Monitor 7" Touchscreen
- Industrial Software „Windows Embedded“
- Measuring Software VISCOM (Basic Edition)
- Database including over 1.000 references
- Database for electronic turbo chargers (Tester ATD-1 and DELTA-TECH)
- USB port
- Module for remote maintenance iNET
- Server Update
- Software available in GER, GB, PL, FR, IT, RUS, SP

TECHNICAL FEATURES

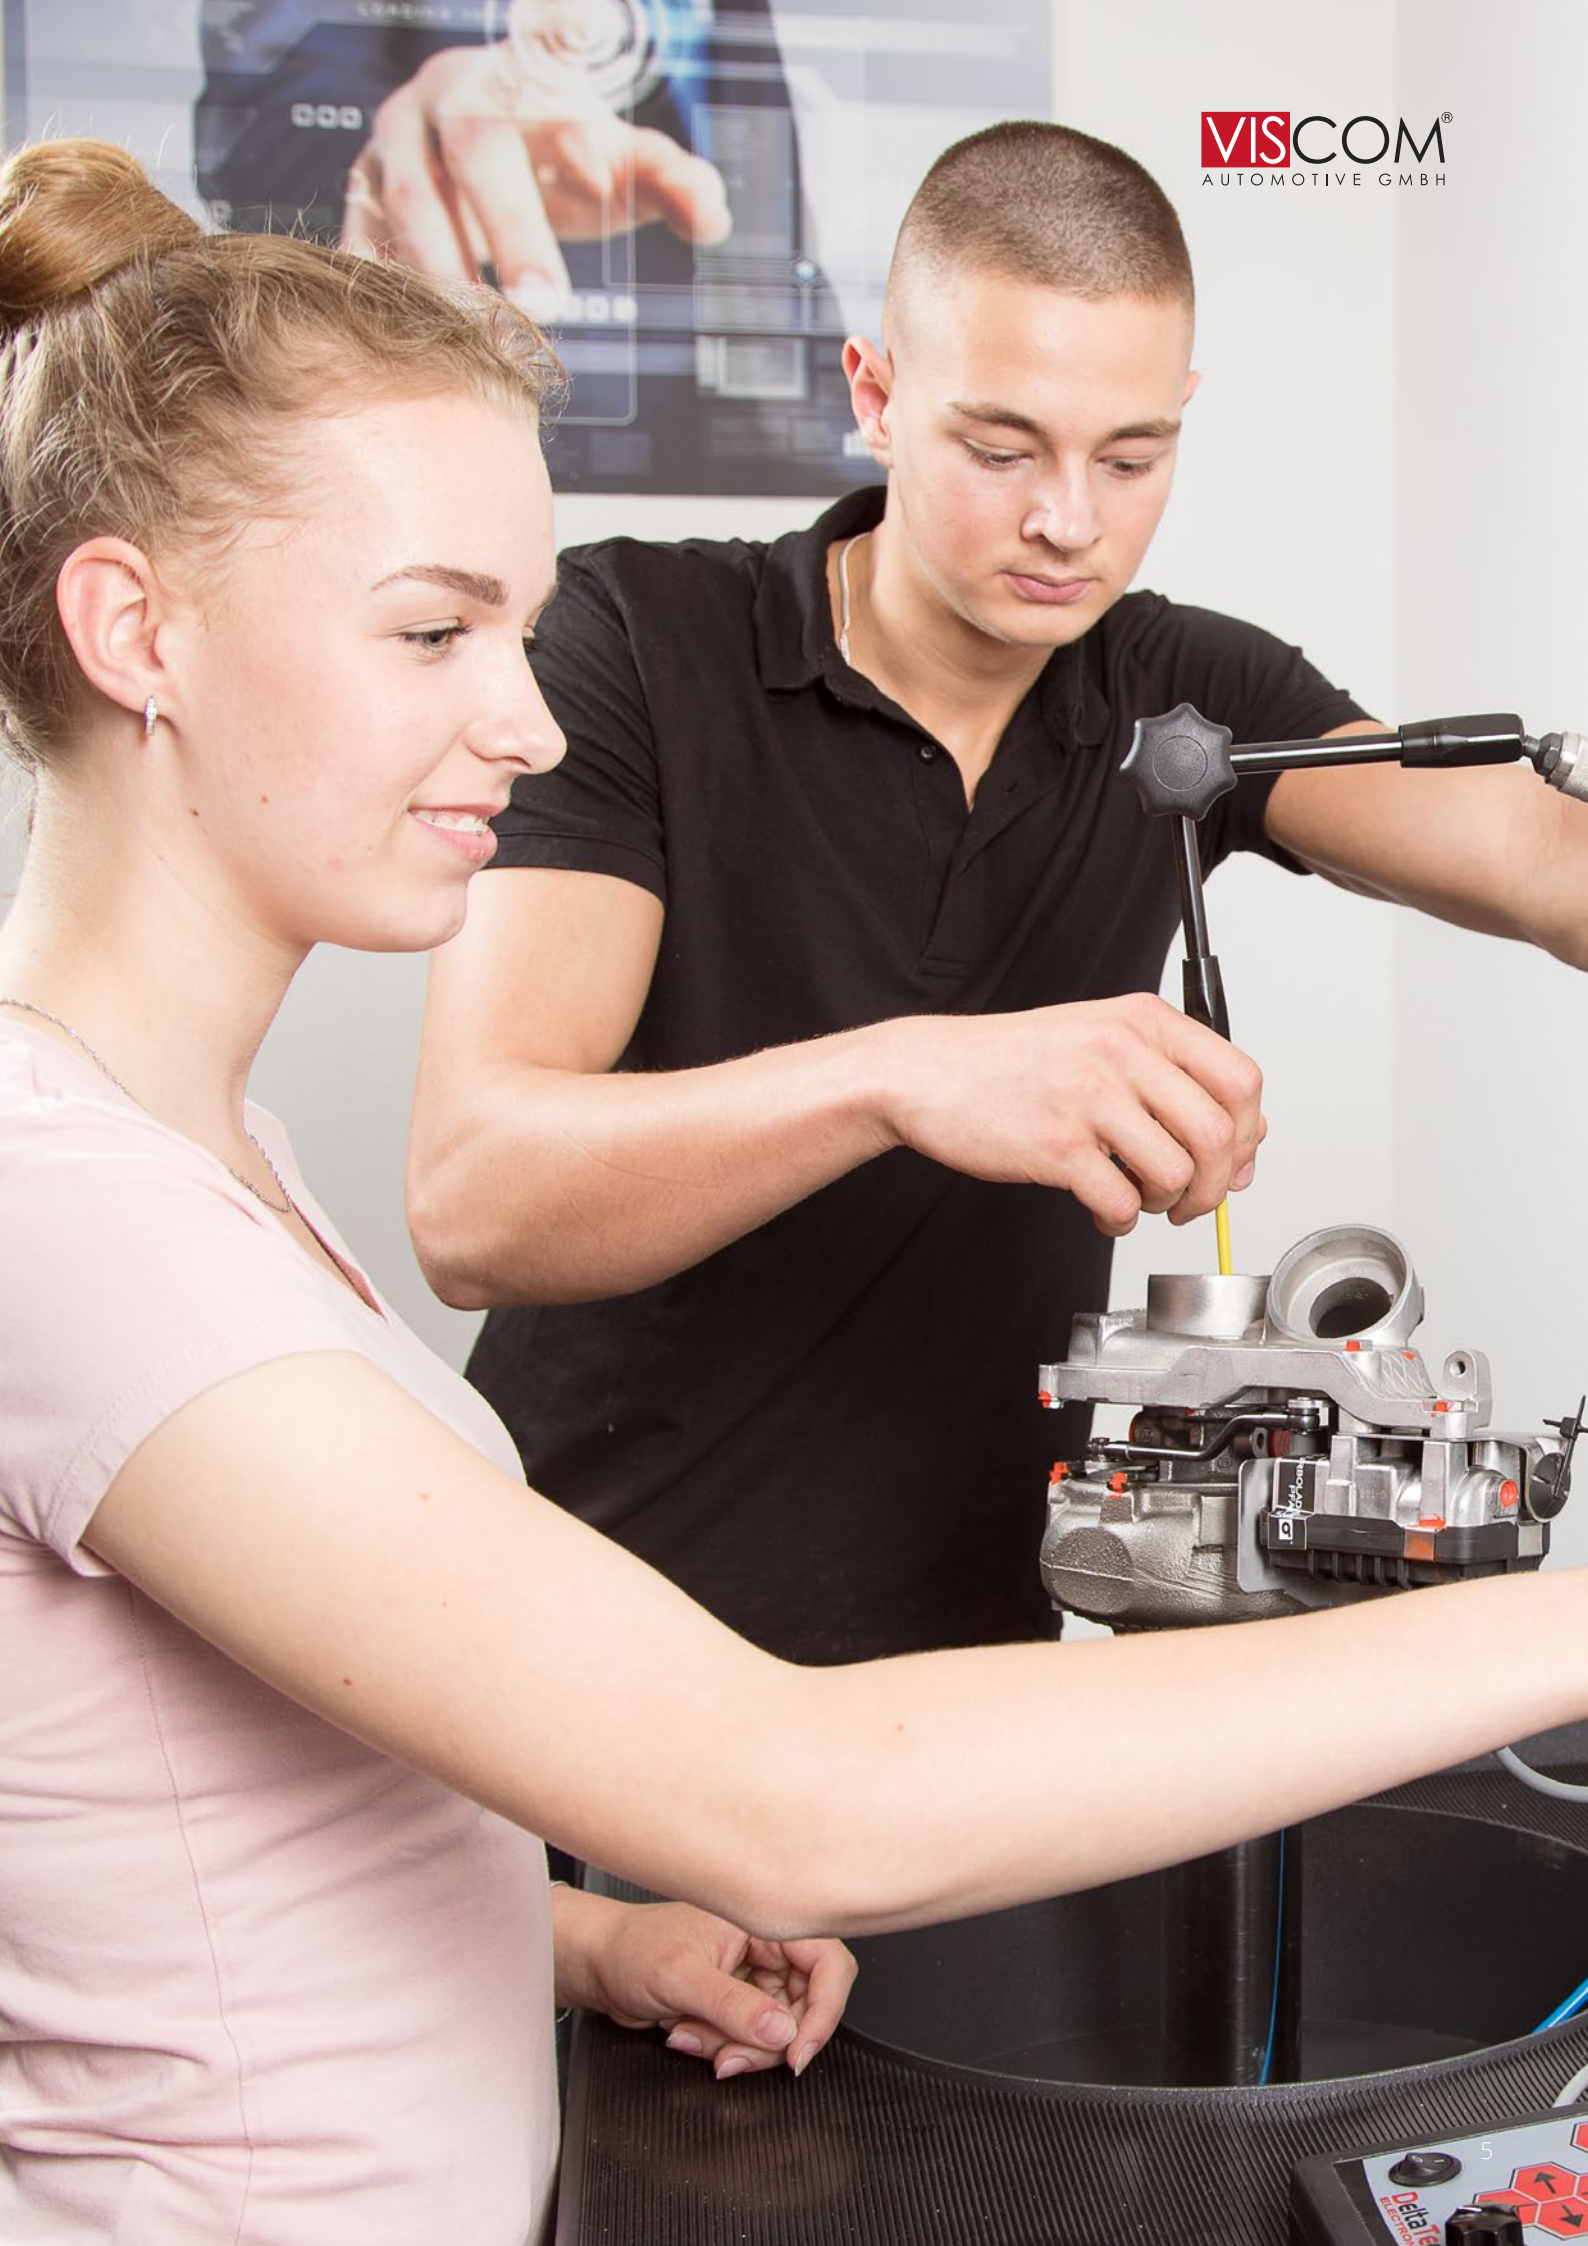

- Industrially verified sensors
- Automatic control of power unit
- Automatic registration of the ambient pressure (hPa) and temperature (°C)
- Automatic control of the vacuum actuator (PAS)
- Industrial control system (Beckhoff)

WORK DYNAMIC

- 5 to 15 seconds mantling time for any turbocharger
- Ready to measure 21 seconds after turning it on
- 59 seconds for turning on, mantling and measuring result
- Efficiency: over 160 measures within 8 hours

TECHNICAL SPECIFICATIONS

- Voltage: 230V / 50 Hz
- Current: 10A
- Dimensions mm: L:1200 B:690 H:1430
- Weight : 240 kg

PREMIUM EDITION

ALL INCLUSIV

- VISCOM TM-A System
- Industrial TFT 15,6" Touchscreen
- Measuring software VISCOM (Premium Edition)
- Database including over 1.000 references
- Database for electronic turbo chargers (Tester ATD-1 and Delta Tech VNTT Pro)
- Server Update optional
- Software available in GER, GB, PL, FR, IT, RU, SP
- Automatic Control of Power Unit
- Automatic Capturing (hPa) and (°C)
- Automatic Actuator Control (PAS)
- Industry Control System (Beckhoff)
- Pneumatic Actuator Control (PAP)
- Complete Plug&Play Adapter System
- iCOM-System: Intelligent Communication System
- iPROG-System: Intelligent Programming System

TECHNICAL SPECIFICATIONS

- Voltage: 230V / 50 Hz
- Current: 10A
- Dimensions mm: L:1200 B:690 H:1430
- Weight : 250 kg

> "IDEOLOGY CAN NOT
REPLACE PERFORMANCE."

ONLY BETTER PERFORMANCE CAN.

autoEXPERT

PREMIUM EDITION has been
awarded as the Product of the
Year 2015.

> "MEET L.I.S.A. – YOUR FUTURE
EMPLOYEE OF THE MONTH."

LEADING INNOVATIVE SYSTEM AUTOMATION.

EVOLUTION EDITION

ALL INCLUSIV

- VISCOM TM-A System
- Industrial TFT 15,6" Touchscreen
- Measuring software VISCOM (Premium Edition)
- Database including over 1.000 references
- Database for electronic turbo chargers (Tester ATD-1 and Delta Tech VNTT Pro)
- Server Update optional
- Software available in GER, GB, PL, FR, IT, RU, SP
- Automatic Control of Power Unit
- Automatic Capturing (hPa) and (°C)
- Automatic Actuator Control (PAS)
- Industry Control System (Beckhoff)
- Pneumatic Actuator Control (PAP)
- Complete Plug&Play Adapter System
- iCOM-System: Intelligent Communication System
- iPROG-System: Intelligent Programming System

TECHNICAL SPECIFICATIONS

- Voltage: 230V / 50 Hz
- Current: 10A
- Dimensions mm: L:1200 B:690 H:1430
- Weight : 250 kg
